Re: Operable Unit 5, Technical Memorandum 13, Model

Descriptions

Dear Mr. Slaten:

EPA reviewed the Department of Energy's (DOE) responses to our comments and those of the Colorado Department of Public Health and Environment (CDPHE) concerning the above referenced document. Based on this review and the meeting held on November 3, 1994, at which the groundwater model was presented and discussed, EPA approves Technical Memorandum 13. We understand that our request for a table of groundwater model parameters and references for those parameters will be provided in the final version of the document. We also understand that as the modelling effort proceeds, DOE will periodically consult with modelers from EPA and CDPHE.

Our point of contact for Operable Unit 5 is Bonnie Lavelle, (303)294-1067.

Sincerely,

Martin 18h 5

Martin Hestmark, Manager Rocky Flats Project
